HOUSE CONCURRENT RESOLUTION NO. 2

IN THE LEGISLATURE OF THE STATE OF ALASKA

TWENTY-FOURTH LEGISLATURE - FIRST SESSION

BY REPRESENTATIVES SAMUELS, Olson, McGuire, Gara, Crawford, Gardner, Hawker, Stoltze, LeDoux, Croft, Harris, Anderson, Chenault, Coghill, Elkins, Foster, Gruenberg, Holm, Kelly, Kerttula, Meyer, Ramras, Rokeberg, Salmon, Seaton, Thomas, Weyhrauch, Wilson, Berkowitz, Kapsner, Moses, Guttenberg, Joule, Kott, Gatto, Lynn, Cissna, Neuman, Dahlstrom, Kohring

SENATORS Therriault, Bunde, Cowdery, Davis, Dyson, Ellis, Elton, French, Green, Guess, Hoffman, Huggins, Kookesh, Olson, Seekins, Stedman, Ben Stevens, Gary Stevens, Wagoner, Wilken

Introduced: 2/18/05

Referred: Resources

A RESOLUTION

- 1 **Urging Governor Murkowski to take quick action to conduct, approve, or sanction a**
2 **study of in-state natural gas needs and take-off points for intrastate use of natural gas**
3 **transported in a North Slope natural gas pipeline.**

4 **BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF ALASKA:**

5 **WHEREAS** both the economic and fiscal future of the State of Alaska are closely tied
6 to the commercialization of North Slope gas; and

7 **WHEREAS** the current climate of rising national demand for natural gas combined
8 with declining natural gas reserves has created a loud call for Alaska's energy resources; and

9 **WHEREAS** the United States Congress has heard that call and answered with
10 financial backing and direction for a regulatory regime for a project to bring Alaska's North
11 Slope gas to the lower 48 states; and

12 **WHEREAS** the United States Congress has also mandated that any project to bring
13 Alaska gas to the lower 48 states must also be designed to accommodate deliveries of Alaska
14 gas to markets in Alaska, and has required that any pipeline sponsor study the needs of Alaska
15 for natural gas and the take-off points that will be required to maximize the value of gas to

1 serve Alaska gas markets; and

2 **WHEREAS**, on February 9, 2005, the Federal Energy Regulatory Commission, in its
3 Order No. 2005, issued final rules requiring that project sponsors of any Alaska gas pipeline
4 must rely on a study of Alaska in-state needs and take-off points as a part of the initial "open
5 season" process to design pipeline capacity needs, locate in-state delivery points, and
6 calculate in-state transportation costs as part of a plan of design and construction of an Alaska
7 natural gas pipeline; and

8 **WHEREAS** the Federal Energy Regulatory Commission has also required that the
9 study shall, to the extent practicable, be conducted, approved, or otherwise sanctioned by the
10 appropriate governmental agency, office, or commission of the State of Alaska; and

11 **WHEREAS** the rules that were set out in the Federal Energy Regulatory Commission
12 Order No. 2005 will be brought into force 90 days after being posted in the Federal Register;

13 **BE IT RESOLVED** that the Alaska State Legislature urges Governor Murkowski to
14 take quick action to conduct, approve, or sanction a study of in-state natural gas needs and
15 take-off points for intrastate use of natural gas transported in a North Slope natural gas
16 pipeline, with the objective that the study be completed before the final rules relating to the
17 Alaska Natural Gas Pipeline take effect on the 90th day following the publication in the
18 Federal Register of the rules adopted by the Federal Energy Regulatory Commission in its
19 Order No. 2005.
